OUR SERVICES

Vehicle Restraint Systems

Environmental Noise Barriers

General Fencing & Gates

Parapets

High Security Fencing & Gates

ENVIRONMENTAL NOISE BARRIERS

Our barriers have been acoustically tested in accordance with BS EN 1793 by a UKAS approved laboratory. We can supply both reflective and absorptive barriers of varying performance values, manufactured from a variety of materials, such as timber, aluminium, steel, acrylic and Greenscreen, which is ideal for supporting climbing plants. Once these plants are established the barrier has a completely natural appearance that blends into the landscape.

CORPORATE SOCIAL RESPONSIBILITY

Newton & Frost Fencing Ltd is extremely proud to have its roots set firmly in the rural community, with its head offices nestled in the beautiful Wealden countryside just outside of the South Downs National Park. These surroundings are a constant reminder to all of us of the importance of ensuring that we create a legacy that benefits the environment, enhances the wellbeing of our employees, and creates a positive impact within local communities.

SOCIAL VALUE

Education & Training

Training We offer training and mentorship that allows career development opportunity for all employees.

Wealden Works Director & Senior Management level involvement in local charity. The charity offers both work and life skills, to young persons, helping them with mentorships, training, work placements and qualifications, giving them the tools and confidence to move forwards in their lives.

Heathfield Partnership Director involvement in community organisation who, throughout the Covid 19 pandemic, has distributed a significant number of laptops to families to allow their children to continue with their education in the virtual environment.

Traineeships We are currently working with East Sussex College to prepare traineeships for people throughout the country. This will give them the training that they require to allow them to begin a career in the fencing industry.

Charity Support

Volunteer Days Employees are able to take volunteer days to help out within the local communities. This is not limited to our own projects, but can also through a commitment via main contractors.

Charity Fundraising The Company encourages, and promotes employees individual fundraising ventures.

Wellbeing

Mental Health Support We offer a 24/7 confidential Employee Assistance Programme which is available to all employees and their families

Cycle to Work Scheme Our head office is rurally situated between two market towns originally linked by a railway. With the railway now gone, the track bed now forms part of the National Cycle Network, making the Cycle to Work Scheme a healthy and environmentally friendly alternative for our employees to travel to their place of work.
